Technical drawing of a circular component, likely a cross-section of a mechanical part. The component features a central hole with a complex, multi-faceted internal profile. The outer boundary is circular, and the inner boundary is defined by a series of straight segments forming a star-like shape. The drawing includes several labels and dimensions:

- 5**: Points to the outer circular boundary.
- 8**: Points to the inner boundary of the central hole.
- 0**: Points to the center of the component.
- t**: Indicates the thickness of the material between the outer and inner boundaries.
- d**: Indicates the diameter of the outer circle.
- 6**: Points to the inner boundary of the central hole.
- 7**: Points to a vertical stem or handle extending from the bottom of the component.
- 45°**: Two angles are marked at the base of the stem, indicating a 45-degree taper.
